

PRESS RELEASE

New Delhi, October 24, 2013: World's only congress of Petroleum-Coal-Gas industry together is back again. With 4 months to go, the only petroleum & coal event of the year has gathered momentum. WPCC-2014 attended by industries leaders, Ministers, Bureaucrats, Scientists, Technologists, Academicians and invited delegates. It would be a perfect platform for interaction, exchange of ideas in petroleum, coal & gas exploration and production, cross country pipelines and with the promotion of new fuels and unconventional hydrocarbons like shale gas, shale oil and gas hydrates. Recent developments in Clean Coal Technology, Biofuels, CBM, Natural Gas, LNG, CNG, Liquid Fuels, Petrochemicals from Coal and Petcoke, Coal Gasification, Underground Coal Gasification, Coal-Syngas-Petrochemicals-Fertilizers, Coal to liquid-CTL, GTL need to be pursued. The Exhibition will showcase clean and green technologies, services and products. Business-to-Business Meetings (B2B) will also be organized. The Conference will also cover related topics on health, safety and environment management in the oil, coal & gas sector.

The WPCC-2014 organised with the support of the Ministries of Petroleum & Natural Gas, Coal, Power & Earth Sciences, Government of India. CEO's Panel, Plenary Sessions, Technical Sessions and Panel Discussion during WPCC-2014 promise to bring to the table insights which have relevance to global industries players.

Earlier, WPCC-2013 had attracted over 300 delegates, including about 40 foreign and ministerial delegates. There were presentation of poster papers and oral papers. This time round it is expected to be an even greater extravaganza that will sow the seeds of a vibrant and energy-secure future.
