Message

I am happy to learn that the Energy And Environment Foundation is organizing the 12th World PetroCoal Congress-2022 & 3rd World Future Fuel Summit 2022 from 16th to 17th February 2022 at Virtual Forum on the theme "Petroleum-Coal-Gas: Transition to a Green Planet" & "Sustainable Future Fuel for Global Green Climate". Energy security is very vital for the nation as development and growth are linked with high consumption of energy. The contributions of coal, oil and gas in the energy mix of our country have been very significant. Innovative thinking, new technological breakthrough and development of clean and green technologies with improvement of energy efficiency is therefore, the need of the hour.

I am sure that 12th World PetroCoal Congress-2022 & 3rd World Future Fuel Summit 2022 will provide a valuable opportunity to government officials, industry experts, academia, global leaders, technology providers and investors to come together and share their experience and expertise on the opportunities and key challenges energy sector is now facing.

I congratulate and wish great success to the organizers for their sincere efforts in organizing the 12th WPCC 2022 & 3rd WFFS 2022, I look forward to the outcome of the conference.

(PRALHAD JOSHI)
